

Adding tens and ones

Example - $54 + 32 =$

Break up the ones first - $4 + 2 = 6$

Break up the tens next - $50 + 30 = 80$

Add them together - $80 + 6 = 86$

1. $20 + 32 =$

2. $34 + 63 =$

3. $88 + 11 =$

4. $70 + 13 =$

5. $65 + 33 =$

Now adding cross into the next ten.

Example – $16 + 79 =$

Add the ones – $6 + 9 = 15$

Add the tens – $10 + 70 = 80$

Add them together $15 + 80 = 95$

1. $37 + 25 =$

2. $55 + 35 =$

3. $91 + 19 =$

4. $78 + 14 =$

5. $68 + 26 =$
