The image shows a full page of white graph paper with a light gray grid pattern. The grid consists of small squares. In the upper right quadrant of the page, there is a hand-drawn rectangle with a thick pink border. The rectangle is approximately 6 units wide and 3 units high. The rest of the page is empty graph paper.

Practice Question

$$428 - 115 =$$

[illegible]

1 mark

STOP

Please wait until you are told to start work on page 4.

You should work through the booklet until you are asked to stop. Answer as many questions as you can. If you find a question is too difficult, go on to the next one and come back to it later if you have time.

Instructions

Questions and Answers

In this booklet, there are different types of question for you to answer in different ways.

Most questions have a pink box for you to write your answer in.
For questions set out on squared paper, you should write your answer above or below the pink line.

Marks

At the side of the page, next to each question, is a circle. Under the circle it tells you the number of marks available for that question.

Now try the practice question. This question will not be marked.
