

It can be inside or outside

Your challenge is to create an obstacle course for your whole family

Please send your photos and videos in!

Mrs Fagence's Challenge

It needs to contain at least 10 things to do.

You can use physical objects (like the video) or chalk the obstacle course with instructions and different challenges to complete (like the picture above) The choice is yours.

You need to time yourself (and your family) doing it. Maybe have a podium and medals for the winners!
