

Monday 8th June 2020

Mrs Ferrari's World Oceans Day Challenge

Today is World Oceans Day.

World Oceans Day is held every year on 8th June to raise awareness of the vital importance of our oceans and the role they play in keeping our planet healthy. A global celebration, it looks to bring people together across the world to encourage everyone to think about how we can all help to look after and protect the oceans.

My challenge for you is to create something for World Oceans Day.

Build, make or bake something blue. This can be anything you choose.

Create a poster to remind people of ways that we can all help to take care of our oceans.

Design and make your very own sea creature - lego, junk model, collage, paint or draw.

Be creative, be colourful and be brilliant!
