

Writing

Design and label your very own special garden. You might want to include play areas, vegetable patches, relaxation areas - it's up to you!

Remember you can always write some sentences for an extra challenge too!

Mindfulness

Spend some time in nature today. Make note/draw anything beautiful or interesting that you see.

Art

Create your own plant/flower. This could be a drawing, painting or you could even make it 3D! However you would like to make it, it's your decision!

Great Gardens

Maths

Find the subtraction maths challenge attached. It can sometimes help to cross out as you minus.

Science

Try to research how to grow a plant. You could even plant some yourself if you have the right equipment!

Phonics

It's not quite garden themed, but have a go at the 'Picnic on Pluto' phonics game and choose your phase.
