

Maths

- Plan a holiday. Think about flights, accommodation, activities, food etc. Price it all up 😊 For an added challenge, at the end use your multiplication skills to work out how much it would be for you and your family to go.
- Design different shaped pool floats.
- Use your research from geography to create a graph of the average temperature in the Maldives each month.
- Try the Pirates Coordinates activity.
- Try the escape the beach hut activity (open the PowerPoint first).

English

- Create your own holiday brochure for your own paradise island retreat. Think about the hotel, activities, weather etc.
- Write a play script set on an island. It can be a funny holiday, someone stuck on a deserted island – whatever you think 😊
- Act out your play with your family or by playing the different characters yourself.
- Write a diary entry as though you are on the island.

Art

- Design a flag for your island.
- Design a set of island themed holiday clothing to wear.

Music

- Use body percussion or O-Generator to create an island themed song.
- Write a song for your island.

Computing

- Go on Scratch and create an animation to encourage people to visit your island.

Geography

- Research Hawaii and find out facts about it.
- Research the weather in the Maldives.

PSHE

- Here is some Cosmic Kids Yoga with a beach theme
<https://www.youtube.com/watch?v=96R059yOPVI>
- What three things would you bring with you if you were stranded on a deserted island?

Science

- If you are able to get hold of some sand, try these cool experiments <https://www.wardrealty.com/post/each-science-experiments-that-will-make-your-kids-love-topsail/>
- Investigate how sound travels in water
<https://www.stillplayingschool.com/2015/04/sound-under-water-experiment-kids.html?m=1>
