

First, decide on how much your zoo tickets cost. Then, create some deals using fractions. e.g. 'Save $\frac{1}{4}$!' How much does it cost now? Re-write the list in French.

Write a list of your animals. Find out the average weight of them all. Now, find the total weight of all the animals.

What fraction of your animals...

- Eat meat
- Have fur
- Hibernate
- Are endangered

Create a zoo themed board game. Create an advert for the zoo on Scratch (Scratch.mit.edu)

Create a jingle for your zoo advert on O-Generator.
(Wyburns, musicfirst.co.uk or the O-Generator app)

On a printed/drawn picture of an animal's skeleton, label some of the bones.

Research which animals live where in Europe. Create a symbol for them and draw/stick them on a map. Remember to create a key.

• Write a short story about an adventure of one or more of the zoo animals.

• Write a persuasive letter to the prime Minister to stop the destroying of an animal's natural habitat.

• Write descriptions of the animals for their enclosures. Include co-ordinating and subordinating conjunctions.

• Write an animal poem. Any style is great!

Find out which religions have animals as gods, or as symbols in stories.
